

# Subject Index—Volume 20

## A

- Abnormalities
  - congenital, cancer and chromosomes, June, 1006-1014
  - histologic and chromosomal, in cervical neoplasia, Nov., 1934-1952
- Acid
  - deoxyribonucleic, in presumed precursors of endometrial carcinoma, Dec., 2067-2077
  - deoxyribonucleic, in evolution of carcinomas of breast, Aug., 1248-1252
  - mucopolysaccharide composition of serous effusions, Mar., 462-466
- Actinomycin D
  - induced remission of malignant melanoma with, May, 656-662
  - in treatment and prognosis of Wilms' tumor, Jan., 96-102
- Adenocarcinoma
  - in situ and epidermoid carcinoma in situ, simultaneous, Dec., 2250-2254
  - of colon, chromosome constitution of, Oct., 1746-1759
- Adenoma(s)
  - of colon, chromosome constitution of, Oct., 1746-1759
  - of parathyroid, Apr., 512-524
- Adnexa, tumors of, in Africans, Oct., 1689-1698
- Adrenalectomy for advanced cancer of breast, long-term survival after, Feb., 254-259
- Age statistically related to malignancy and weight of pineal, Aug., 1203-1214
- Alcoholism associated with cancer of mouth and pharynx, June, 1015-1022
- Ameloblastoma, granular cell, with metastasis to cervical vertebrae, June, 991-999
- American College of Surgeons, Commission on Cancer of, Apr., 596-600
- Amyl nitrite in oxygen, effects of breathing, on radio-sensitivity of C3H tumor, Jan., 66-70
- Analysis, gastric, as screening measure for cancer of stomach, Jan., 127-133
- "Anaplasia Clinic"; aid in diagnosis and treatment of pre-invasive cervical lesions, Feb., 202-209
- Antibiotic, antitumor (daunomycin), in treatment of neoplastic disease, Mar., 333-353
- Antibody(ies)
  - circulating, against carcinoembryonic antigens of digestive system, Oct., 1663-1667
  - <sup>125</sup>I-labeled, to fibrinogen compared with neohydrin-<sup>203</sup>Hg, May, 751-755
  - diagnostic studies and therapeutic trials, May, 865-870
- Antigens, carcinoembryonic, of digestive system, circulating antibodies against, Oct., 1663-1667
- Artery, hepatic, infusion of fluorinated pyrimidines into, for treatment of metastatic carcinoma of liver, Nov., 1886-1892
- Atypias of bronchiolar epithelium associated with 6-MP and TEM, July, 1071-1079
- AY 62013 in advanced cancer involving brain and other organs, Nov., 1837-1840

## B

- Barrier function of lymph node to tumor cells and erythrocytes, Nov., 1907-1913; 1914-1919

- Bilaterality of cancer of breast, Nov., 1867-1870
- Biopsy, transbronchial, smear of, for diagnosis of peripheral pulmonary carcinomas, May, 687-698
- Biosynthesis of heme in leukemic leukocytes, July, 1117-1123
- Bisguanyldihydrazone derivatives, new aromatic, anti-leukemic action of, May, 880-884
- Bladder
  - carcinoma of, combined radiotherapy, surgery and chemotherapy in, Nov., 1879-1885
  - primary and metastatic epithelial tumors of, Nov., 1893-1898
- Bleomycin, studies on, May, 891-895
- Blood flow of tumors in mice, Jan., 51-59, 60-65, 66-70
- Bone, *see also* marrow
  - basal cell carcinoma with metastasis to, Dec., 2125-2132
  - formation, malignant tumor of breast with, Aug., 1234-1247
  - lesions of, early detection of, by photoscanning with radioactive strontium, May, 734-737
  - "mesenchymal" chondrosarcoma in, Sept., 1494-1498
  - scanning of, with strontium-85 to detect osseous metastases, Mar., 392-395
  - tumors of
    - malignant, in childhood and adolescence, stature related to, June, 967-973
    - primary malignant, May, 738-746
- Bowel, large, prostatic carcinoma presenting as acute obstruction of, June, 1035-1037
- Brain
  - cancer of, epodyl in, Nov., 1827-1840
  - histiocytosis X with involvement of, Apr., 486-492
  - microglial glioma of, with extracerebral involvement, June, 983-990
- Breast
  - cancer of
    - advanced, long-term survival after adrenalectomy for, Feb., 254-259
    - associated with acute myelocytic leukemia, July, 1080-1088
    - at menopausal ages, Mar., 354-362
    - bilaterality of, Nov., 1867-1870
    - chemotherapy in primary therapy of, July, 1054-1055
    - discussion from symposium on, July, 1060-1065
    - dysphagia and esophageal stenosis as manifestations of, Nov., 2002-2007
    - end results in, July, 1039-1043
    - enhancement of pulmonary metastases by x-irradiation in rats bearing, Nov., 2020-2025
    - extended mastectomy for, May, 677-680
    - hormonal therapy in, Oct., 1673-1678
    - ~ impact of public education about cancer on detection and treatment by surgery of, Feb., 260-262
    - in cigar and pipe smokers, relative risk of, Aug., 1288-1296
    - locally advanced, radiotherapy in, July, 1046-1050
    - locally recurrent after radical mastectomy, July, 1051-1053
    - male, Oct., 1617-1624
    - mammography and clinical examination in mass screening for, Dec., 2184-2188
    - postmenopausal

# Subject Index—Volume 20

## A

- Abnormalities
  - congenital, cancer and chromosomes, June, 1006-1014
  - histologic and chromosomal, in cervical neoplasia, Nov., 1934-1952
- Acid
  - deoxyribonucleic, in presumed precursors of endometrial carcinoma, Dec., 2067-2077
  - deoxyribonucleic, in evolution of carcinomas of breast, Aug., 1248-1252
  - mucopolysaccharide composition of serous effusions, Mar., 462-466
- Actinomycin D
  - induced remission of malignant melanoma with, May, 656-662
  - in treatment and prognosis of Wilms' tumor, Jan., 96-102
- Adenocarcinoma
  - in situ and epidermoid carcinoma in situ, simultaneous, Dec., 2250-2254
  - of colon, chromosome constitution of, Oct., 1746-1759
- Adenoma(s)
  - of colon, chromosome constitution of, Oct., 1746-1759
  - of parathyroid, Apr., 512-524
- Adnexa, tumors of, in Africans, Oct., 1689-1698
- Adrenalectomy for advanced cancer of breast, long-term survival after, Feb., 254-259
- Age statistically related to malignancy and weight of pineal, Aug., 1203-1214
- Alcoholism associated with cancer of mouth and pharynx, June, 1015-1022

- Bladder
  - carcinoma of, combined radiotherapy, surgery and chemotherapy in, Nov., 1879-1885
  - primary and metastatic epithelial tumors of, Nov., 1893-1898
- Bleomycin, studies on, May, 891-895
- Blood flow of tumors in mice, Jan., 51-59, 60-65, 66-70
- Bone, *see also* marrow
  - basal cell carcinoma with metastasis to, Dec., 2125-2132
  - formation, malignant tumor of breast with, Aug., 1234-1247
  - lesions of, early detection of, by photoscanning with radioactive strontium, May, 734-737
  - "mesenchymal" chondrosarcoma in, Sept., 1494-1498
  - scanning of, with strontium-85 to detect osseous metastases, Mar., 392-395
  - tumors of
    - malignant, in childhood and adolescence, stature related to, June, 967-973
    - primary malignant, May, 738-746
- Bowel, large, prostatic carcinoma presenting as acute obstruction of, June, 1035-1037
- Brain
  - cancer of, epodyl in, Nov., 1827-1840
  - histiocytosis X with involvement of, Apr., 486-492
  - microglial glioma of, with extracerebral involvement, June, 983-990
- Breast
  - cancer of
    - advanced, long-term survival after adrenalectomy for, Feb., 254-259
    - associated with acute myelocytic leukemia, July, 1080-1088
    - at menopausal ages, Mar., 354-362
    - bilaterality of, Nov., 1867-1870
    - chemotherapy in primary therapy of, July, 1054-1055
    - discussion from symposium on, July, 1060-1065
    - dysphagia and esophageal stenosis as manifestations of, Nov., 2002-2007
    - end results in, July, 1039-1043
    - enhancement of pulmonary metastases by x-irradiation in rats bearing, Nov., 2020-2025
    - extended mastectomy for, May, 677-680
    - hormonal therapy in, Oct., 1673-1678
    - ~ impact of public education about cancer on detection and treatment by surgery of, Feb., 260-262
    - in cigar and pipe smokers, relative risk of, Aug., 1288-1296
    - locally advanced, radiotherapy in, July, 1046-1050
    - locally recurrent after radical mastectomy, July, 1051-1053
    - male, Oct., 1617-1624
    - mammography and clinical examination in mass screening for, Dec., 2184-2188
    - postmenopausal

- urine steroid excretion associated with, Jan., 155-163  
 vaginal cytology as aid to hormone therapy in, Oct., 1807-1813  
 results of treatment for, July, 1056-1059  
 résumé of standard surgical procedures at Memorial Hospital, July, 1044-1045
- carcinoma of**  
 diffuse infiltrating scirrhous, Mar., 363-370  
 disseminated, high-dosage  $\Delta^1$ -testololactone therapy of, Mar., 458-461  
 evaluation of different stages of, with same parameters, Dec., 2235-2240  
 primary, prediction of axillary nodal metastases from morphology of, June, 948-960  
 recurrent, fate of patients with, Mar., 371-376  
 value of DNA in evolution of, Aug., 1248-1252  
 epithelial invasion of nerves in benign diseases of, Dec., 2245-2249  
 sarcoma of, in reticulum cells, Sept., 1438-1446  
 tumor of, malignant, with bone formation, Aug., 1234-1247
- Bronchioli, atypias of epithelium of, associated with 6-MP and TEM, July, 1071-1079**
- Bronchus (i), carcinomas of**  
 anaplastic, ultrastructure of, Feb., 286-294  
 multiple primary, May, 699-705
- C**
- Canal, anal, transitional cloacogenic carcinoma of, Oct., 1727-1745**
- Cancer, see also Carcinoma and specific site**  
 advanced  
   involving brain and other organs, epodyl in, Nov., 1827-1840  
   of breast  
     long-term survival after adrenalectomy for, Feb., 254-259  
     radiotherapy in, July, 1046-1050  
   of thyroid, pituitary ablation with  $^{90}\text{Y}$  implant in, May, 724-726  
 and contagious disease in twins, Feb., 263-270  
 chromosomes  
   and causation of, July, 1099-1116  
   and congenital abnormalities, June, 1006-1014  
 Commission on, of American College of Surgeons, Apr., 596-600  
 Congress, Ninth International, as viewed from host country, May, 604-606  
 death rates, international, Jan., 113-127  
 effects of phenols in tea promoting, May, 614-616  
 experimental, of lung, May, 857-864  
 fatal primary, of lung, in teen-age smoker, Mar., 451-457  
 heredity and genetic counseling; xeroderma pigmentosum, Oct., 1796-1801  
 inoperable, of liver, treatment of, by intra-arterial radioactive isotopes and chemotherapy, May, 793-804  
 in United States, regional patterns in mortality from, May, 617-622  
 locally recurrent, after radical mastectomy, July, 1051-1053  
 metastatic mammary, dysphagia and esophageal stenosis as manifestations of, Nov., 2002-2007  
 M-proteins and plasmacytosis, Feb., 295-307  
 of pharyngeal wall, Nov., 1859-1866  
 principles of surgical management of, May, 663-667  
 postmenopausal, of breast
- urine steroid excretion associated with, Jan., 155-163  
 vaginal cytology as aid to hormone therapy in, Oct., 1807-1813
- primary**  
 and cirrhosis of liver, May, 627-631  
 of lung, new technique for detecting malignant cells in sputum in patients having, May, 681-686
- Carbohydrates of perfused isolated liver, action of methotrexate on metabolism of, Oct., 1668-1672**
- Carbon dioxide, effects of breathing gases containing, on blood flow and oxygenation of tumors in mice, Jan., 51-59**
- Carcinoma(s), see also Cancer and specific site**  
 acinic cell and clear cell, of parotid gland, ultrastructure of, Apr., 563-571  
 advanced prostatic, response of men with, to exogenous administration of testosterone, Nov., 1871-1878  
 anaplastic bronchial, ultrastructure of, Feb., 286-294  
 arising in duplicated colon, Apr., 478-461  
 basal cell, with metastasis to bone, Dec., 2125-2132  
 colorectal, prevalence and prognosis of individual clinical and pathologic variables associated with, Nov., 1976-1985  
 diffuse infiltrating scirrhous, of breast, Mar., 363-370  
 disseminated, of breast, high-dosage  $\Delta^1$ -testololactone therapy of, Mar., 458-461  
 effect of plasma from patients with, on in vitro lymphocyte transformation, Dec., 2088-2089
- endometrial**  
 deoxyribonucleic acid content of presumed precursors of, Dec., 2067-2077  
 of prostatic utricle Oct., 1715-1722
- endometrioid, related to "mesonephroma of ovary, Sept., 1405-1417**
- four simultaneously occurring primary, Oct., 1723-1726**
- in situ**  
 epidermoid, and adenocarcinoma in situ, simultaneous, Dec., 2250-2254  
 of esophageal epithelium, June, 1023-1029  
 metastatic, of liver, infusion of fluorinated pyrimidines into hepatic artery for treatment of, Nov., 1886-1892  
 multiple primary  
   bronchial, May, 699-705  
   occurring simultaneously, Oct., 1723-1726  
 occult papillary, of thyroid, occult metastasis from, Dec., 2100-2104  
 oral, in patients with leukoplakia of oral mucosa, Dec., 2189-2193  
 peripheral pulmonary, transbronchial biopsy smear for diagnosis of, May, 687-698  
 primary mammary, prediction on axillary nodal metastases from morphology of, June, 948-960  
 recurrent, of breast, fate of patients with, Mar., 371-376  
 solid, of thyroid, May, 706-723
- squamous cell**  
 arising in dentigerous cyst, Dec., 2241-2244  
 of esophagus, Dec., 2078-2087  
 transitional cloacogenic, of anal canal, Oct., 1727-1745
- V 2, in rabbit, failure of low molecular weight dextrans to alter frequency of lung metastasis from, Feb., 281-285**

- Carotid body paragangliomas, histology and ultra-structure of, Sept., 1473-1488
- Cavity, nasal, malignant melanoma of, in Africans, Oct., 1699-1705
- Cell(s)
- acinic, carcinoma of, in parotid gland, Apr., 563-571
  - balloon, nevi of, Sept., 1502-1514
  - basal, carcinoma of, with metastasis to bone, Dec., 2125-2132
  - Burkitt lymphoma, Sept., 1430-1437
  - cancer, selective heat sensitivity of, Sept., 1351-1381
  - germ, neoplasms of, in sacrococcygeal region, Dec., 2105-2117
  - granular
    - ameloblastoma of, with metastasis to cervical vertebrae, June, 991-999
    - multiple tumors of, Nov., 2032-2047
  - incompatible, inhibition of tumor growth by confrontation with, May, 871-879
  - in effusions from cancer patients, chromosome analysis of, Apr., 537-540
  - leukemic, in tissue culture, electron microscopic study of, June, 911-925
  - lines, seven new, from patients with acute leukemia, continuous culture of, June, 926-947
  - lipid, tumors of ovary in, Nov., 1953-1962
  - malignant, in sputum, new technique for detecting, May, 681-686
  - neonatal muscle, differentiated from rhabdomyosarcoma in vitro, Apr., 572-578
  - reticulum
    - of breast, with sarcoma, Sept., 1438-1446
    - sarcoma of, Apr., 545-551
  - spindle and epithelioid, nevi of, Feb., 175-189
  - squamous
    - carcinoma of
      - in esophagus, Dec., 2078-2087
      - arising in dentigerous cyst, Dec., 2241-2244
      - inhibition by vitamin A of induction of tumors of, May, 857-864
  - tumor
    - barrier function of lymph node to, Nov., 1907-1913; 1914-1919
    - trauma and localization of, Jan., 23-30
- Cervix, uterine
- "Anaplasia Clinic" as aid in diagnosis and treatment of pre-invasive lesions of, Feb., 202-209
  - blue nevus of, Feb., 210-214
  - cancer(s) of
    - biometric approach to etiology, Feb., 190-201
    - effect of radium treatment on activity and distribution of some enzymes in, Sept., 1388-1394
    - in Indian women, May, 623-626
    - morphogenesis of, Nov., 1899-1906
    - oxygen tension in, following administration of vasodilator drugs during oxygen inhalation, Oct., 1625-1634
  - carcinoma of
    - chemical sensitization in radiotherapy of, May, 822-825
    - in 864 patients, Jan., 86-92
    - in Lebanese Christians and Moslems, epidemiology of, Oct., 1706-1714
  - neoplasia of, histologic and chromosomal abnormalities in, Nov., 1934-1952
  - palliative urinary diversion in patients with advanced carcinoma of, Jan., 93-95
  - premalignant and malignant conditions of, Oct., 1587-1593
- Chemodectoma, ultrastructure of, Feb., 271-280
- Chemotherapy
- combined with radiotherapy and surgery in carcinoma of bladder, Nov., 1879-1885
  - following splenectomy for leukopenia or thrombocytopenia in patients with malignant lymphomas, tolerance of, Apr., 558-562
  - in primary therapy of cancer of breast, July, 1054-1055
  - intraluminal, adjuvant to operation for cancer of colon and rectum, May, 829-833
  - of cancer by regional perfusion, May, 834-838
  - of germinal tumors, May, 747-750
  - one and two-dose, for African lymphoma, long-term remissions following, May, 756-759
  - regional, esterase-susceptible water-soluble agent (S-73) for, May, 826-828
  - treatment of inoperable cancer of liver by, May, 793-804
- Chondrosarcoma, "mesenchymal," Sept., 1494-1498
- Chordoma, Nov., 1841-1850
- Choriocarcinoma
- in Near East, Jan., 144-149
  - latent, Jan., 150-154
- Choristoma, tracheobronchial, of esophagus, Sept., 1489-1493
- Chromosome(s)
- abnormalities, congenital leukemia with, Aug., 1227-1233
  - analysis
    - of cells in effusions from cancer patients, Apr., 537-540
    - of solid tumors; I. Twenty-eight nonepithelial tumors, Aug., 1253-1273; II. Twenty-six epithelial tumors, Aug., 1274-1287
  - and causation of cancer and leukemia; III. Karyotypes of cancerous effusions, July, 1099-1116
  - cancer and congenital abnormalities, June, 1006-1014
  - constitution of adenoma and adenocarcinoma of colon, Oct., 1746-1759
  - double Ph<sup>1</sup>, in chronic granulocytic leukemia, Nov., 1963-1975
  - pattern, hypodiploid, in acute leukemia following polycythemia vera, Aug., 1318-1325
  - polyploidization in leukocyte cultures treated with streptonigrin and cyclophosphamide, Jan., 31-35
- Cigar smokers, relative risk of pulmonary cancer in, Aug., 1288-1296
- Cigarette-smoking dogs, histologic changes in bronchial tubes of, Dec., 2055-2066
- Cigarettes, tar and nicotine retrieval from 56 brands of, Mar., 323-332
- Cinematography and examination of nasopharynx, new endoscopic technique for, Nov., 2013-2019
- Cirrhosis
- and primary cancer of liver, May, 627-631
  - associated with cancer of mouth and pharynx, June, 1015-1022
- Classification
- histologic, of Hodgkin's disease, Oct., 1594-1601
  - of primary malignant tumors of liver in infancy and childhood, Oct., 1760-1771
- Clustering, case, of leukemia in Manitoba, Dec., 2200-2212
- Coagulation disorders in cancer, Sept., 1452-1465
- Colon
- adenoma and adenocarcinoma of, chromosome constitution of, Oct., 1746-1759
  - cancer of

- current procedures for detection and diagnosis, Mar., 445-450
- environmental factors of, Sept., 1520-1561
- intraluminal chemotherapy adjuvant to operation for, May, 829-833
- carcinoma of, pathogenesis of recurrences on suture line following resection for, May, 673-676
- duplicated, carcinoma of, Apr., 478-461
- effect of colostomy on experimentally produced neoplasms of, Sept., 1466-1472
- Colostomy, effect of, on experimentally produced neoplasms of colon of rat, Sept., 1466-1472
- Commission on Cancer of American College of Surgeons, Apr., 596-600
- Consanguinity as possible etiologic factor in choriocarcinoma in Near East, Jan., 144-149
- Corticosterone, effect of, on clinical course and hormonal excretion in cancer of breast, Oct., 1673-1678
- Corticotropin stimulation, response of urine steroid excretion associated with postmenopausal cancer of breast to, Jan., 155-163
- Counseling, genetic, cancer and heredity; xeroderma pigmentosum, Oct., 1796-1801
- Crabtree effect in some bacterial cultures, Sept., 1499-1501
- Crystal bodies in ultrastructure of multiform glioblastoma, July, 1181-1185
- Culture (s)
- bacterial, Crabtree effect in, Sept., 1499-1501
  - continuous, of seven new cell lines from patients with acute leukemia, June, 926-947
  - leukocyte, treated with streptonigrin and cyclophosphamide, chromosome polyploidization in, Jan., 31-35
- tissue
- electron microscopic study of human leukemia cells in, June, 911-925
  - of bone marrow, Oct., 1679-1688
  - primary and metastatic epithelial tumors of kidney and bladder in, Nov., 1893-1898
  - short-term, behavior of cancers of lung in, Jan., 1-22
- Cyclophosphamide
- chromosome polyploidization in leukocyte cultures treated with, Jan., 31-35
  - in management of Ewing's sarcoma, June, 961-966
  - metabolism of, May, 900-904
  - radioactive, metabolism of, May, 896-899
- Cyst, dentigerous, squamous cell carcinoma arising in, Dec., 2241-2244
- Cystosarcoma phyllodes, relationship of histologic features to behavior of, Dec., 2090-2099
- Cytology
- exfoliative, of oral carcinoma after radiation therapy, Aug., 1297-1300
  - vaginal, as aid to hormonal therapy in postmenopausal cancer of breast, Oct., 1807-1813
- Cytosine arabinoside, clinical pharmacology and anti-tumor activity of, May, 809-816
- D**
- Daunomycin in treatment of neoplastic disease, Mar., 333-353

- Education, public, about cancer, impact of, on detection and treatment of cancer of breast by surgery, Feb., 260-262
- Effusions
- cancerous, karyotypes of, July, 1099-1116
  - from cancer patients, chromosome analysis of cells in, Apr., 537-540
- Endoscopy, new technique of, for examination and cinematography of nasopharynx, Nov., 2013-2019
- Enzymes
- alkaline phosphate, in serum, separation of, using gel-filtration techniques, Jan., 71-76
  - in cancers of cervix uteri, effect of radium treatment

- on activity and distribution of, Sept., 1388-1394  
in malignant tissues, cytologic studies of, Mar., 423-432
- Epithelium**  
bronchiolar, atypias of, associated with 6-MP and TEM, July, 1071-1079  
esophageal, extensive dysplasia and carcinoma in situ of, June, 1023-1029
- Epodyl** in advanced cancer involving brain and other organs, Nov., 1837-1840
- Erythrocytes**, barrier function of lymph node to, Nov., 1907-1913; 1914-1919
- Erythroleukemia** as phase of mouse myeloproliferative syndrome, Jan., 40-50
- Esophagus**  
cancer of, surgery combined with preoperative concentrated irradiation for, May, 778-788  
carcinoma of, verrucous squamous cell, Dec., 2078-2087  
extensive dysplasia and carcinoma in situ of epithelium of, June, 1023-1029  
osteochondroma of, Sept., 1489-1493  
stenosis of, and dysphagia, Nov., 2002-2007  
thoracic, resection of, for cancer, May, 789-792
- Esterase**, water-soluble agent susceptible to, May, 826-828
- Estrogen** antagonist, inhibition of tumor of hamster kidney by, Dec., 2118-2124
- Eye**, tumors of, in Africans, Oct., 1689-1698
- F**
- Fibrinogen**,  $^{125}\text{I}$ -labeled antibody(ies) to compared to neohydrin- $^{203}\text{Hg}$ , May, 751-755  
diagnostic studies and therapeutic trials, May, 865-870
- Fibromatosis**, musculo-aponeurotic, of shoulder girdle, July, 1131-1140
- Fibrosarcoma**, congenital, Oct., 1607-1616
- Fibrosis**, submucous, oral epithelial changes in thirty Indians with, July, 1141-1146
- Fluids**, body, shifts in, during radical surgery, Nov., 1827-1831
- Folate** antagonist, hematopoietic effects of, Feb., 225-232
- 5-fluorouracil**  
adjuvant to operation of cancer of colon and rectum, May, 829-833  
therapy for cancer of stomach, May, 668-672
- Fractures**, pathologic, survival times after treatment of, Dec., 2154-2158
- G**
- Ganglioneuroblastoma**, maturation of, to ganglioneuroma, Aug., 1343-1349
- Ganglioneuroma**, maturation of ganglioneuroblastoma to, Aug., 1343-1349
- Gases** containing carbon dioxide at atmospheric pressure, effects of breathing, on blood flow and oxygenation of tumors in mice, Jan., 51-59
- Gastrectomy**, curative, for carcinoma of stomach, stromal reaction around tumor and metastasis and prognosis after, Nov., 1924-1929
- Gel-filtration** techniques, separation of alkaline phosphatase enzymes in serum using, Jan., 71-76
- Gland(s)**, *see also specific type*  
intraoral minor salivary, surgical management of tumors of, Oct., 1578-1586
- Glioblastoma**, multiform, crystal bodies in ultrastructure of, July, 1181-1185
- Glioma**, microglial, of brain with extracerebral involvement, June, 983-990
- Gonads**, dysgenetic, occurrence of tumors in, Aug., 1301-1310
- Growth**, tumor, effect of, on barrier function of lymph node to tumor cells and erythrocytes, Nov., 1914-1919
- H**
- Hamartoma**, angiomatous lymphoid, Apr., 525-536
- Head**  
carcinoma of, significance of thyroid tissue in lymph nodes associated with, Jan., 103-112  
neurogenous tumors of, Nov., 1992-2001
- Heart**, primary leiomyosarcoma of, Nov., 2008-2012
- Heat**, selective sensitivity of cancer cells to, Sept., 1351-1381
- Hematoporphyrin** derivative for detection and management of cancer, Dec., 2255-2257
- Heme**, biosynthesis of, in leukemic leukocytes, July, 1117-1123
- Hepatoblastoma** in infancy and childhood, Mar., 396-422
- Hepatocarcinoma** in infancy and childhood, Mar., 369-422
- Hepatography** of umbilical vein, evaluation of anti-cancer drugs by, Feb., 319-322
- Heredity**, cancer and genetic counseling; xeroderma pigmentosum, Oct., 1796-1801
- Histocytosis**, acute differentiated, long-term survival of patients with, Oct., 1782-1795
- Histiocytosis X** with involvement of brain, Apr., 486-492
- Histogenesis** of carcinoma in stomach, Sept., 1418-1429
- HN2** adjuvant to operation for cancer of colon and rectum, May, 829-833
- Hodgkin's disease**  
and chronic lymphocytic leukemia in same patient, Apr., 552-557  
histologic classification of, Oct., 1594-1601  
in patient with systemic lupus erythematosus, Nov., 1930-1933
- Hormone(s)**  
sex, and renal neoplasia, Dec., 2118-2124
- therapy**  
in cancer of breast, Oct., 1673-1678  
in postmenopausal cancer of breast, vaginal cytology as aid to, Oct., 1807-1813
- Hospitals**, mental, cancer mortality among patients in, Dec., 2194-2199
- Hypoglycemia**, severe recurrent, intra-abdominal extra-pancreatic neoplasm associated with, July, 1155-1160
- I**
- $^{125}\text{I}$  to label antibodies to fibrinogen compared with neohydrin- $^{203}\text{Hg}$ , May, 751-755  
diagnostic studies and therapeutic trials, May, 865-870
- Imaging techniques**, radionuclide, in detection of cancer, May, 607-613
- Induction**, embryonic, role of, in benign transformation of neuroblastomas, Aug., 1335-1342
- Infection**, herpes-type virus, in adult with hematologic disorder, Dec., 2159-2169
- Inflammation**, effect of, on barrier function of lymph node to tumor cells and erythrocytes, Nov., 1914-1919
- Influenza virus** in viral neurotropism and oncolysis, Mar., 440-444
- Infusion**  
continuous, of methotrexate in children with acute leukemia, Feb., 233-242

of fluorinated pyrimidines into hepatic artery for treatment of metastatic carcinoma of liver, Nov., 1886-1892

Inhalation, oxygen, oxygen tension in cancer of cervix following administration of vasodilator drugs during, Oct., 1625-1634

Inhibitor, biological, of transplantable mouse tumors, Apr., 471-477

Irradiation (*see also* Radiation, X-irradiation)

fractionated total body, treatment of lymphosarcoma with, Apr., 482-485

ionizing, effect of, on normal lymphatic vessels and lymph nodes, Nov., 1851-1858

preoperative concentrated, combined with surgery for esophageal cancer, May, 778-788

therapy in peripheral neuropathy caused by malignant disease, Sept., 1447-1451

Irrigation, vaginal, as smear method of studying tissue validity, Oct., 1587-1593

Isotopes, intra-arterial radioactive, treatment of inoperable cancer of liver by, May, 793-804

## J, K

James Ewing Society presidential address for 1967, Nov., 1815-1818

Jaws, osteosarcoma of, Mar., 377-391

Karyotypes of cancerous effusions, July, 1099-1116

Kidney

neoplasia of, and sex hormones, Dec., 2118-2124

pathology of, following initial remission of acute leukemia induced by prednisone, Sept., 1395-1402

primary and metastatic epithelial tumors of, Nov., 1893-1898

## L

L-asparaginase, treatment of lymphosarcoma in dog with, July, 1066-1070

Leiomyosarcoma

associated with severe recurrent hypoglycemia, July, 1155-1160

primary, of heart, Nov., 2008-2012

Lesions

cutaneous, of Letterer-Siwe disease, Nov., 1986-1991

pre-invasive cervical, "Anaplasia Clinic" to aid in diagnosis and treatment of, Feb., 2002-209

Letterer-Siwe disease

cutaneous lesions of, Nov., 1986-1991

long-term survival of patients with, Oct., 1782-1795

Leukemia

action of new aromatic bisguanyldihydrazone derivatives against, May, 880-884

acute

continuous culture of seven new cell lines from patients with, June, 926-947

continuous infusion of methotrexate in children with, Feb., 233-242

hypodiploid chromosome pattern in, following polycythemia vera, Aug., 1318-1325

in adults, comparison of methotrexate with 6-mercaptopurine-prednisone in treatment of, Aug., 1221-1226

in children, addition of local radiation after bone marrow remission in, Sept., 1403-1404

myelocytic, cancer of breast associated with, July, 1080-1088

renal and hepatic pathology following initial remission of, induced by prednisone, Sept., 1395-1402

bovine, evidence in support of virus etiology for, May, 851-856

childhood

affected by daunomycin, Mar., 333-353

cytomegalic inclusion disease in, Jan., 36-39

chromosomes and causation of, July, 1099-1116

clinical status of patients with, related to virus-like particles in their plasma, Oct., 1563-1577

chronic

granulocytic, double Ph<sup>1</sup> chromosomes in, Nov., 1963-1975

lymphocytic

and Hodgkin's disease in same patient, Apr., 552-557

complete remission in, Feb., 243-253

radiation-induced remissions in, Sept., 1382-1387

congenital, with chromosome abnormalities, Aug., 1227-1233

electron microscopic study(ies) of

and lymphoma, May, 760-777

in tissue culture, June, 911-925

granulocytic, and reticulum cell sarcoma, Apr., 545-551

in Hawaii, geographic distribution of, Apr., 541-544

in Manitoba, Dec., 2200-2212

leukemogenic effect of, May, 846-850

virus (Moloney), induced resistance of mice to lymphoid strain of, July, 1124-1130

Leukemogenicity of leukemic materials, May, 846-850

Leukocyte(s)

cultures treated with streptonigrin and cyclophosphamide, chromosome polyploidization in, Jan., 31-35

dihydrofolate reductase activity and deoxynucleoside incorporation into DNA of, May, 905-910

leukemic, biosynthesis of heme in, July, 1117-1123

Leukolymphosarcoma, complete remission in, Feb., 243-253

Leukopenia in patients with malignant lymphomas, tolerance of chemotherapy following splenectomy for, Apr., 558-562

Leukoplakia of oral mucosa, incidence of oral carcinoma in patients with, Dec., 2189-2193

Lipids of perfused isolated liver, action of methotrexate on metabolism of, Oct., 1668-1672

Liver

cancer of

and cirrhosis of, May, 627-631

inoperable, treatment of, by intra-arterial radioactive isotopes and chemotherapy, May, 793-804

reporting of, Oct., 1802-1806

carcinoma of, infusion of fluorinated pyrimidines into hepatic artery for treatment of, Nov., 1886-1892

pathology of, following initial remission of acute leukemia induced by prednisone, Sept., 1395-1402

perfused isolated, action of methotrexate on metabolism of lipids and carbohydrates of, Oct., 1668-1672

primary malignant tumors of, in infancy and childhood, Oct., 1760-1771

Localization

of intracranial tumors, May, 751-755

of tumor cells, Jan., 23-30

Lung

cancer of

among nonsmokers, July, 1161-1172

and Los-Angeles-type air pollution, Dec., 2139-2147

experimental, May, 857-864

fatal primary, in teen-age smoker, Mar., 451-457

histology and biological behavior, Feb., 165-174

in short-term tissue cultures, Jan., 1-22

- primary, new technique for detecting malignant cells in sputum in patients having, May, 681-686  
reporting of, Oct., 1802-1806  
carcinoma(s) of  
in four siblings, Nov., 2048-2053  
significance of thyroid tissue in lymph nodes associated with, Jan., 103-112  
transbronchial biopsy smear for diagnosis of, May, 687-698  
failure of low molecular weight dextrans to alter frequency of metastasis in, Feb., 281-285  
metastases to  
following palliative nephrectomy, spontaneous regression of, July, 1147-1154  
from mammary cancer, enhancement of, by x-irradiation, Nov., 2020-2025  
tumorlet of, with hilar lymph node metastasis, Sept., 1515-1519  
Lupus erythematosus, systemic, Hodgkin's disease in patient with, Nov., 1930-1933  
Lymphadenography of dorsal lymphatics of penis, Nov., 2026-2031  
Lymphatics, dorsal, of penis, lymphadenography of, Nov., 2026-2031  
Lymph node(s)  
associated with carcinoma of head, neck or lung, significance of thyroid tissue in, Jan., 103-112  
barrier function of, to tumor cells and erythrocytes, Nov., 1907-1913; 1914-1919  
effect of ionizing irradiation on, Nov., 1851-1858  
hilar, pulmonary tumorlet with metastasis to, Sept., 1515-1519  
scalene, in necropsies of malignant tumors, Dec., 2148-2153  
tissue from patient with lymphocytic lymphoma, long-term culture of, Feb., 215-224  
Lymphocyte, effect of plasma from patients with carcinoma, on in vitro transformation of, Dec., 2088-2089  
Lymphoma(s)  
African, long-term remissions following one and two-dose chemotherapy for, May, 756-759  
Burkitt; establishment of cell line, Sept., 1430-1437  
electron microscopic studies of, May, 760-777  
lymphocytic, long-term culture of lymph node tissue from patient with, Feb., 215-224  
malignant  
and immunological deficiency, Apr., 579-588  
tolerance of chemotherapy following splenectomy for leukopenia or thrombocytopenia in patients with, Apr., 558-562  
clinical trials with N-isopropyl-a-(2-methylhydrazino)-p-toluamide hydrochloride in, Aug., 1187-1194  
Lymphosarcoma, treatment of  
in dog with L-asparaginase, July, 1066-1070  
with fractionated total body irradiation, Apr., 482-485
- M**
- Malignancy  
statistically related to age and weight of pineal, Aug., 1203-1214  
value of examining bone marrow in diagnosing, Aug., 1215-1220  
Mammography and clinical examination in mass screening for cancer of breast, Dec., 2184-2188  
Marrow  
addition of local radiation to, after remission in acute leukemia in children, Sept., 1403-1404  
autogenous transplants of, treatment of disseminated melanoma by, Jan., 77-85  
tissue culture of, Oct., 1679-1688  
value of examining, in diagnosing malignancy, Aug., 1215-1220  
Mastectomy  
extended, for cancer of breast, May, 677-680  
radical, locally recurrent cancer after, July, 1051-1053  
Medroxyprogesterone acetate, effect of, on clinical course and hormonal excretion in cancer of breast, Oct., 1673-1678  
Melanoma(s)  
disseminated, treatment of, by systemic melphalan, methotrexate and autogenous bone marrow transplants, Jan., 77-85  
malignant  
biological aspects of, May, 650-655  
induced remission of, with actinomycin D, May, 656-662  
of nasal cavity in Africans, Oct., 1699-1705  
of uvea, histogenesis of, Apr., 493-507  
melanocytic and nevocytic malignant, May, 632-649  
Melphalan, systemic, treatment of disseminated melanoma by, Jan., 77-85  
Menopause, cancer of breast at, Mar., 354-362  
6-mercaptopurine  
and prednisone compared with methotrexate in treatment of acute leukemia in adults, Aug., 1221-1226  
atypias of bronchiolar epithelium associated with, July, 1071-1079  
"Mesonephroma" of ovary, Sept., 1405-1417  
Metabolism  
of lipids and carbohydrates of perfused isolated liver, action of methotrexate on, Oct., 1668-1672  
of radioactive cyclophosphamide, May, 896-899  
Metaplasia  
intestinal, of carcinoma in stomach, Sept., 1418-1429  
tracheobronchial squamous, inhibition by vitamin A of induction of, May, 857-864  
Metastasis(es)  
axillary nodal, prediction of, from morphology of primary mammary carcinomas, June, 948-960  
in lung, failure of low molecular weight dextrans to alter frequency of, Feb., 281-285  
occult, from occult papillary carcinoma of thyroid, Dec., 2100-2104  
osseous, detection of, Mar., 392-395  
pulmonary  
enhancement of, by x-irradiation, Nov., 2020-2025  
following palliative nephrectomy, spontaneous regression of, July, 1147-1154  
stromal reaction around, after curative gastrectomy for carcinoma of stomach, Nov., 1924-1929  
to bone, basal cell carcinoma with, Dec., 2125-2132  
to cervical vertebrae, granular cell ameloblastoma with, June, 991-999  
to hilar lymph node from pulmonary tumorlet, Sept., 1515-1519  
Methotrexate  
absence of neurotoxicity following massive intrathecal administration of, Oct., 1780-1781  
action of, on metabolism of lipids and carbohydrates of perfused isolated liver, Oct., 1668-1672  
administration, relation of dihydrofolate reductase activity and deoxynucleoside incorporation into DNA of leukocytes to, May, 905-910  
compared with 6-mercaptopurine-prednisone in treatment of acute leukemia in adults, Aug., 1221-1226

continuous infusion of, in children with acute leukemia, Feb., 233-242

treatment of disseminated melanoma by, Jan., 77-85  
Mitomycin C, comparative study of methods of administering, May, 805-808

Morphology of primary mammary carcinomas, prediction of axillary nodal metastases from, June, 948-960

#### Mortality

from cancer

among patients in New York mental hospitals, Dec., 2194-2199

in United States, regional patterns in, May, 617-622  
of stomach in Costa Rica, July, 1173-1180

from diseases associated with smoking [abstr.], Mar., 467-468

#### Mouth, cancer of

cirrhosis, alcoholism and heavy smoking associated with, June, 1015-1022

oral epithelial changes in thirty Indians with, July, 1141-1146

carcinomas of, chemical sensitization in radiotherapy of, May, 822-825

M-proteins, plasmacytosis and cancer, Feb., 295-307

Mucopolysaccharide, acid, composition of serous effusions, Mar., 462-466

Mucosa, oral, incidence of oral carcinoma in patients with leukoplakia of, Dec., 2189-2193

Muscle, neonatal, cells of, differentiated from rhabdomyosarcoma in vitro, Apr., 572-578

Myoblastomas, Nov., 2032-2047

Myositis, proliferative, Dec., 2213-2223

Myxoma of toe, June, 1030-1034

## N

#### Nasopharynx

cancer of, in Connecticut, Apr., 508-511

new endoscopic technique for examination and cinematography of, Nov., 2013-2019

#### Neck

carcinoma of, significance of thyroid tissue in lymph nodes associated with, Jan., 103-112

neurogenous tumors of, Nov., 1992-2001

Necropsies of malignant tumors, scalene lymph nodes in, Dec., 2148-2153

Neocystectomy in survivors following multivisceral pelvic surgery, Nov., 1832-1836

Neohydrin-<sup>203</sup>Hg compared with <sup>125</sup>I-labeled antibody to fibrinogen, May, 751-755

#### Neoplasia

and non-neoplastic conditions, acid mucopolysaccharide composition of serous effusions in patients with, Mar., 462-466

cervical, histologic and chromosomal abnormalities in, Nov., 1934-1952

daunomycin in treatment of, Mar., 333-353

disseminated, clinical trials with N-isopropyl-a-(2-methylhydrazino)-p-toluamide hydrochloride in, Aug., 1187-1194

possible surveillance mechanism against, May, 871-879

renal, and sex hormones, Dec., 2118-2124

#### Neoplasm(s)

experimentally produced, of colon of rat, effect of colostomy on, Sept., 1466-1472

germ cell, of sacrococcygeal region, Dec., 2105-2117

intra-abdominal extrapancreatic, associated with severe recurrent hypoglycemia, July, 1155-1160

Nephrectomy, palliative, spontaneous regression of pulmonary metastases following, July, 1147-1154

Nerves in benign diseases of breast, epithelial invasion of, Dec., 2245-2249

Neuroblastomas, benign transformation of, role of embryonic induction in, Aug., 1335-1342

Neurofibromata, radiation-induced, Apr., 589-595

Neuropathy, peripheral, caused by malignant disease, effectiveness of irradiation therapy in, Sept., 1447-1451

Neurotoxicity, absence of, following massive intrathecal administration of methotrexate, Oct., 1780-1781

Neutropism, viral, related to oncolysis, Mar., 433-439, 440-444

#### Nevus(i)

balloon cell, Sept., 1502-1514

blue, of uterine cervix, Feb., 210-214

spindle and epithelioid cell, Feb., 175-189

uveal, related to malignant melanomas, Apr., 493-507

Nicotine retrieval from 56 brands of cigarettes, Mar., 323-332

Ninth International Cancer Congress as viewed from host country, May, 604-606

N-isopropyl-a-(2-methylhydrazino)-p-toluamide hydrochloride in malignant lymphoma and other disseminated neoplasia, clinical trials with, Aug., 1187-1194

Nodes, *see also* lymph

axillary, prediction of metastases to, from morphology of primary mammary carcinomas, June, 948-960

Nonsmokers, cancer of lung among, July, 1161-1172

## O

Obstruction, acute, of large bowel, prostatic carcinoma presenting as, June, 1035-1037

Oncolysis related to viral neurotropism, Mar., 433-439, 440-444

Osteochondroma of esophagus, Sept., 1489-1493

Osteosarcoma of jaws, Mar., 377-391

#### Ovary

carcinoma of, variations in survival among patients with, Aug., 1195-1202

lipid cell tumors of, Nov., 1953-1962

"mesonephroma" of, Sept., 1405-1417

#### Oxygen

hyperbaric, megavoltage radiotherapy in, May, 817-821

tension in cancer of cervix following administration of vasodilator drugs during oxygen inhalation, Oct., 1625-1634

Oxygenation of tumors in mice, Jan., 51-59, 60-65, 66-70

## P

Pancreas, carcinoma of tail of, clinical manifestations of, Nov., 1920-1923

Paragangliomas, carotid body, histology and ultrastructure of, Sept., 1473-1488

Parathyroid, adenomas of, Apr., 512-524

Parotid, ultrastructure of acinic cell carcinoma and clear cell carcinoma of, Apr., 563-571

Penis, lymphadenography of dorsal lymphatics of, Nov., 2026-2031

Perfusion, regional, evaluation of chemotherapy of cancer by, May, 834-838

Pharmacology, clinical, of cytosine arabinoside, May, 809-816

#### Pharynx, cancer of

cirrhosis, alcoholism and heavy smoking associated with, June, 1015-1022

walls of, May, 663-667

- Phenols in tea, cancer-promoting effects of, May, 614-616
- Phenomenon, *see specific type*
- Phosphatase, alkaline, separation of enzymes of, in serum using gel-filtration techniques, Jan., 71-76
- Photoscanning with radioactive strontium, early detection of bone lesions by, May, 734-737
- Pigmentation, ectopic, related to malignant melanoma of nasal cavity in Africans, Oct., 1699-1705
- Pineal, weight of, related statistically to age and malignancy, Aug., 1203-1214
- Pipe smokers, relative risk of pulmonary cancer in, Aug., 1288-1296
- Pituitary ablation with  $^{90}\text{Y}$  implant in advanced thyroid cancer, May, 724-726
- Plasma  
from patients with carcinoma, effect of, on in vitro lymphocyte transformation, Dec., 2088-2089  
of leukemia patients, virus-like particles in, Oct., 1563-1577
- Plasmacytosis, M-proteins and cancer, Feb., 295-307
- Pneumonitis, experimental radiation, Dec., 2170-2183
- Pollution, Los-Angeles-type air, cancer of lung and, Dec., 2139-2147
- Polycythemia vera, hypodiploid chromosome pattern in acute leukemia following, Aug., 1318-1325
- Polyploidization, chromosome, in leukocyte cultures treated with streptonigrin and cyclophosphamide, Jan., 31-35
- Polyps, so-called inflammatory fibroid, of stomach, neurogenic nature of, Jan., 134-143
- Prednisone  
and 6-mercaptopurine compared with methotrexate in treatment of acute leukemia in adults, Aug., 1221-1226  
renal and hepatic pathology following initial remission of acute leukemia induced by, Sept., 1395-1402
- Prognosis after curative gastrectomy for carcinoma of stomach, Nov., 1924-1929
- Prostate, carcinoma of  
enzyme histochemistry, Dec., 2133-2138  
nature of perineural space invaded by, Oct., 1772-1779  
presenting as acute obstruction of large bowel, June, 1035-1037  
response of men with, to exogenous administration of testosterone, Nov., 1871-1878
- Public education about cancer, impact of, on detection and treatment of cancer of breast by surgery, Feb., 260-262
- Purgation affecting epidemiology of gastric cancer, Dec., 2224-2234
- Pyrimidines, fluorinated, infusion of, into hepatic artery for treatment of metastatic carcinoma of liver, Nov., 1886-1892

## R

- Radiation (*see also* Irradiation)  
neurofibromata induced by, Apr., 589-595  
local, addition of, after bone marrow remission in acute leukemia in children, Sept., 1403-1404  
pneumonitis, experimental, Dec., 2170-2183  
remissions induced in chronic lymphocytic leukemia by, Sept., 1382-1387  
therapy and oral carcinoma, Aug., 1297-1300
- Radionuclide imaging techniques in detection of cancer, May, 607-613
- Radiosensitivity of C3H tumor, effects of breathing amyl nitrite in oxygen on, Jan., 66-70

- Radiotherapy  
combined with surgery and chemotherapy in carcinoma of bladder, Nov., 1879-1885  
in locally advanced cancer of breast, July, 1046-1050  
megavoltage, in hyperbaric oxygen, May, 817-821  
of oral and cervical carcinomas, chemical sensitization in radiotherapy of, May, 822-825
- Radium treatment, effect of, on activity and distribution of some enzymes in cancers of cervix uteri, Sept., 1388-1394
- Reaction, stromal, around tumor and metastasis after curative gastrectomy for carcinoma of stomach, Nov., 1924-1929
- Rectum, cancer of  
current procedures for detection and diagnosis, Mar., 445-450  
environmental factors of, Sept., 1520-1561  
intraluminal chemotherapy adjuvant to operation for, May, 829-833
- Recurrence(s)  
of carcinoma of breast five or more years after initial treatment, Mar., 371-376  
on suture line following resection for carcinoma of colon, May, 673-676
- Regression, spontaneous, of pulmonary metastases following palliative nephrectomy, July, 1147-1154
- Rehabilitation of cancer patient, May, 839-845
- Remission(s)  
bone marrow, in acute leukemia in children, addition of local radiation after, Sept., 1403-1404  
complete, in chronic lymphocytic leukemia and leukolymphosarcoma, Feb., 243-253  
in chronic lymphocytic leukemia, radiation-induced, Sept., 1382-1387  
induced, of malignant melanoma with actinomycin D, May, 656-662  
initial, of acute leukemia induced by prednisone, renal and hepatic pathology following, Sept., 1395-1402  
long-term, following one and two-dose chemotherapy for African lymphoma, May, 756-759
- Resection  
for carcinoma of colon, pathogenesis of recurrences on suture line following, May, 673-676  
of thoracic esophagus for cancer, May, 789-792
- Resistance of mice to lymphoid strain of leukemia virus (Moloney), induced, July, 1124-1130
- Rhabdomyosarcoma differentiated from neonatal muscle cells in vitro, Apr., 572-578
- Roentgen manifestations in Ewing's sarcoma, May, 727-733

## S

- S-73, esterase-susceptible water-soluble agent for regional chemotherapy, May, 826-828
- Sacrum and coccyx, germ cell neoplasms of region of, Dec., 2105-2117
- Sarcoma  
Ewing's  
case against surgery, Oct., 1602-1606  
cyclophosphamide in management of, June, 961-966  
roentgen manifestations in, May, 727-733
- reticulum cell  
and granulocytic leukemia, Apr., 545-551  
of breast, Sept., 1438-1446
- Scan with selenium 75 methionine, light and electron microscopic study of adenomas of parathyroid following, Apr., 512-524
- Scanning, bone, with strontium-85 to detect osseous metastases, Mar., 392-395

## Screening

- for cancer of stomach, gastric analysis as, Jan., 127-133
- mass, for cancer of breast, mammography and clinical examination in, Dec., 2184-2188
- program on cancer of uterine cervix in Indian women, results of, May, 623-626
- Selenium 75 methionine, light and electron microscopic study of adenomas of parathyroid following scan with, Apr., 512-524
- Sensitivity, selective heat, of cancer cells, Sept., 1351-1381
- Sensitization
  - chemical, in radiotherapy of oral and cervical carcinomas, May, 822-825
  - effect of, on barrier function of lymph node to tumor cells and erythrocytes, Nov., 1914-1919
- Sephadex G-200, separation of alkaline phosphatase enzymes in serum using, Jan., 71-76
- Serum
  - of patients with myeloproliferative diseases, myelostimulatory factors in, Oct., 1679-1688
  - seromucoid in malignant neoplastic disease, qualitative and quantitative alterations in, Oct., 1654-1662
- Sex hormones and renal neoplasia, Dec., 2118-2124
- Shoulder girdle, musculo-aponeurotic fibromatosis of, July, 1131-1140
- Siblings, four, carcinoma of lung in, Nov., 2048-2053
- Single-filing phenomenon in diffuse infiltrating scirrhous carcinoma of breast, Mar., 363-370
- Skin, lesions of, from Letterer-Siwe disease, Nov., 1986-1991
- Smear
  - transbronchial biopsy, for diagnosis of peripheral pulmonary carcinomas, May, 687-698
  - vaginal irrigation, to study tissue validity, Oct., 1587-1593
- Smoker(s)
  - cigar and pipe, relative risk of pulmonary cancer in, Aug., 1288-1296
  - teen-age, fatal primary cancer of lung in, Mar., 451-457
- Smoking
  - heavy, associated with cancer of mouth and pharynx, June, 1015-1022
  - mortality from diseases associated with [abstr.], Mar., 467-468
  - patterns and speciality training of Oregon physicians, June, 974-982
- Splenectomy for leukemia of thrombocytopenia in patients with malignant lymphomas, tolerance of chemotherapy following, Apr., 558-562
- Sputum, new technique for detecting malignant cells in, May, 681-686
- Stages of mammary carcinoma, different, evaluation of, with same parameters, Dec., 2235-2240
- Stature and malignant tumors of bone in childhood and adolescence, June, 967-973
- Stenosis, esophageal, and dysphagia, Nov., 2002-2007
- Steroid excretion in urine associated with postmenopausal cancer of breast, Jan., 155-163
- Stomach
  - cancer of
    - dietary and purgation factors in epidemiology of, Dec., 2224-2234
    - 5-fluorouracil therapy for, May, 668-672
    - gastric analysis as screening measure for, Jan., 127-133
    - in Costa Rica, mortality from, July, 1173-1180
    - in Israel, epidemiologic aspects of, Aug., 1311-1317
  - carcinoma of
    - intestinal metaplasia and histogenesis of, Sept., 1418-1429
    - stromal reaction around tumor and metastasis and prognosis after curative gastrectomy for, Nov., 1924-1929
    - neurogenic nature of so-called inflammatory fibroid polyps of, Jan., 134-143

- Streptonigrin, chromosome polyploidization in leukocyte cultures treated with, Jan., 31-35
- Strontium, radioactive, early detection of bone lesions by photoscanning with, May, 734-737
- Surgery
  - combined with preoperative concentrated irradiation for esophageal cancer, May, 778-788
  - combined with radiotherapy and chemotherapy in carcinoma of bladder, Nov., 1879-1885
  - impact of public education about cancer on detection and treatment of cancer of breast by surgery, Feb., 260-262
  - in Ewing's sarcoma, case against, Oct., 1602-1606
  - multivisceral pelvic, neocystectomy in survivors following, Nov., 1832-1836
  - radical, shifts in body fluids during, Nov., 1827-1831
- Surveillance mechanism, possible, against neoplasia, May, 871-879
- Survival
  - long-term, of patients with acute differentiated histiocytosis, Oct., 1782-1795
  - times after treatment of pathologic fractures, Dec., 2154-2158
- Suture line, pathogenesis of recurrences on, following resection for carcinoma of colon, May, 673-676
- Symposium on cancer of breast, discussion from, July, 1060-1065
- Syndrome, mouse myeloproliferative, erythroleukemic phase of, Jan., 40-50
- System, digestive, circulating antibodies against carcinoembryonic antigens of, Oct., 1663-1667

## T

- Tar retrieval from 56 brands of cigarettes, Mar., 323-332
- Tea, cancer-promoting effects of phenols in, May, 614-616
- TEM, atypias of bronchiolar epithelium associated with, July, 1071-1079
- Tension, oxygen, in cancer of cervix following administration of vasodilator drugs during oxygen inhalation, Oct., 1625-1634
- Testicles, tumors of, July, 1089-1098
- Testosterone, response of men with advanced prostatic carcinoma to exogenous administration of, Nov., 1871-1878
- Therapy, *see also specific type*
  - cancer, decision theory in, Nov., 1819-1826
- Thrombocytopenia in patients with malignant lymphomas, tolerance of chemotherapy following splenectomy for, Apr., 558-562
- Thyroid
  - cancer of
    - advanced, pituitary ablation with <sup>90</sup>Y implant in, May, 724-726
    - management of patients with, Nov., 1815-1818
  - carcinoma of
    - associated with other primary malignant tumors, June, 1000-1005
    - occult papillary, occult metastasis from, Dec., 2100-2104
    - solid, May, 706-723
  - tissue in lymph nodes associated with carcinoma of head, neck or lung, Jan., 103-112

- Tissue(s)**, *see also specific type*  
 extraskelatal soft, "mesenchymal" chondrosarcoma arising in, Sept., 1494-1498  
 malignant, cytologic studies of enzymes in, Mar., 423-432  
 validity study of vaginal irrigation smear method, Oct., 1587-1593
- Toe**, myxoma of, June, 1030-1034
- Training**, specialty, of Oregon physicians, smoking patterns related to, June, 974-982
- Transplants**, autogenous bone marrow, treatment of disseminated melanoma by, Jan., 77-85
- Trauma** of tumor cells, Jan., 23-30
- Triethylene melamine**, atypias of bronchiolar epithelium associated with, July, 1071-1079
- Tubes**, bronchial, of cigarette-smoking dogs, histologic changes in, Dec., 2055-2066
- Tumor(s)**, *see also specific site*  
 Brenner; histogenetic and clinical studies, Feb., 308-318  
 C3H, effects of breathing amyl nitrite in oxygen on radiosensitivity of, Jan., 66-70  
 epithelial, chromosome analysis of, Aug., 1274-1287  
 germinal, chemotherapy of, May, 747-750  
 growth, inhibition of, by confrontation with incompatible cells, May, 871-879  
 in mice, blood flow and oxygenation of, Jan., 51-59, 60-65, 66-70  
 intracranial, localization of, May, 751-755  
 lipid cell, of ovary, Nov., 1953-1962  
 malignant  
   of breast with bone formation, Aug., 1234-1247  
   scalenal lymph nodes in necropsies of, Dec., 2148-2153  
   of hamster kidney, inhibition of, by estrogen antagonist, Dec., 2118-2124  
   of intraoral minor salivary glands, surgical management of, Oct., 1578-1586  
   müllerian, related to endometrioid carcinoma; "mesonephroma" of ovary, Sept., 1405-1417  
   multiple granular cell, Nov., 2032-2047  
   neurogenous, of head and neck, Nov., 1992-2001  
   nonepithelial, chromosome analysis of, Aug., 1253-1273  
 primary  
   and metastatic epithelial, of kidney and bladder in tissue culture, Nov., 1893-1898  
   malignant  
     associated with carcinoma of thyroid, June, 1000-1005  
     of bone, May, 738-746  
     of liver in infancy and childhood, classification of, Oct., 1760-1771  
   rare malignant chondroid, usually arising in bone; mesenchymal chondrosarcoma, Sept., 1494-1498  
   rat, histologic type-specific vascular patterns in, Oct., 1635-1646  
   response, objective, Aug., 1326-1334  
   squamous cell, inhibition by vitamin A of induction of, May, 857-864  
   stromal reaction around, after curative gastrectomy for carcinoma of stomach, Nov., 1924-1929  
   transplantable mouse, biological inhibitor of, Apr., 471-477  
   Wilms', treatment and prognosis in, Jan., 96-102  
   Tumorlet, pulmonary, with hilar lymph node metastasis, Sept., 1515-1519  
 Twins, cancer and contagious disease in, Feb., 263-270
- U, V**
- Uterus**, *see also Cervix*, uterine  
 cancer of, reporting of, Oct., 1802-1806  
 masculinus, endometrial carcinoma of, Oct., 1715-1722
- Utricle**, prostatic, endometrial carcinoma of, Oct., 1715-1722
- Urine**  
 in patients with advanced carcinoma of cervix, palliative diversion of, Jan., 93-95  
 steroid excretion associated with postmenopausal cancer of breast, Jan., 155-163
- Uvea**, histogenesis of malignant melanomas of, Apr., 493-507
- Vaccinia virus**  
 and wart virus, apparent antagonism of, Oct., 1647-1653  
 in viral neurotropism and oncolysis, Mar., 433-439
- Vein**, umbilical, evaluation of anticancer drugs by hepatography of, Feb., 319-322
- Vertebrae**, cervical, granular cell ameloblastoma with metastasis to, June, 991-999
- Vessels**, normal lymphatic, effect of ionizing irradiation on, Nov., 1851-1858
- Virus(es)**  
 etiology for bovine leukemia, evidence in support of, May, 851-856  
 inactivated mouse leukemia, attempts to enhance leukemogenic effect in mice by combination of materials with, May, 846-850  
 infection, herpes-type, in adult with hematologic disorder, Dec., 2159-2169  
 influenza, in viral neurotropism and oncolysis, Mar., 440-444  
 leukemia (Moloney), induced resistance of mice to lymphoid strain of, July, 1124-1130  
 particles like, in plasma of leukemic patients, Oct., 1563-1577  
 vaccinia, in viral neurotropism and oncolysis, Mar., 433-439  
 wart and vaccinia, apparent antagonism of, Oct., 1647-1653
- Vitamin A**, inhibition by, of induction of tracheobronchial squamous metaplasia and squamous cell tumors, May, 857-864
- W, X, Y**
- Wart viruses** and vaccinia, apparent antagonism of, Oct., 1647-1653
- Weight** of pineal statistically related to age and malignancy, Aug., 1203-1214
- Xeroderma pigmentosum**; cancer, heredity and genetic counseling, Oct., 1796-1801
- X-irradiation** in rats bearing mammary cancer, enhancement of pulmonary metastases by, Nov., 2020-2025
- X-ray**, effect of, on barrier function of lymph node to tumor cells and erythrocytes, Nov., 1914-1919
- <sup>90</sup>Y implant** in advanced thyroid cancer, pituitary ablation with, May, 724-726
